What is litter?

Litter: Items that make a place or area **untidy** with **rubbish** or objects left lying about.

Our Learning Journey...the story so far!

Presenting our findings to the school

Birchgrove litter survey.

Presenting our data in a bar chart.

Litter pick in Heath Park.

Cause and consequences of litter.

Causes & consequences of litter

I was walking down a street and suddenly I saw something interesting "oww" I'm going to eat that "ow" help

me I'm stuck!

I was working down the street and suddenly I fell over something interesting I'm going to eat you I took a bit and I got stuck oh no help!

I was walking along the beach and I saw something so I ate it then I felt sick help me!

Litter pick in Heath Park

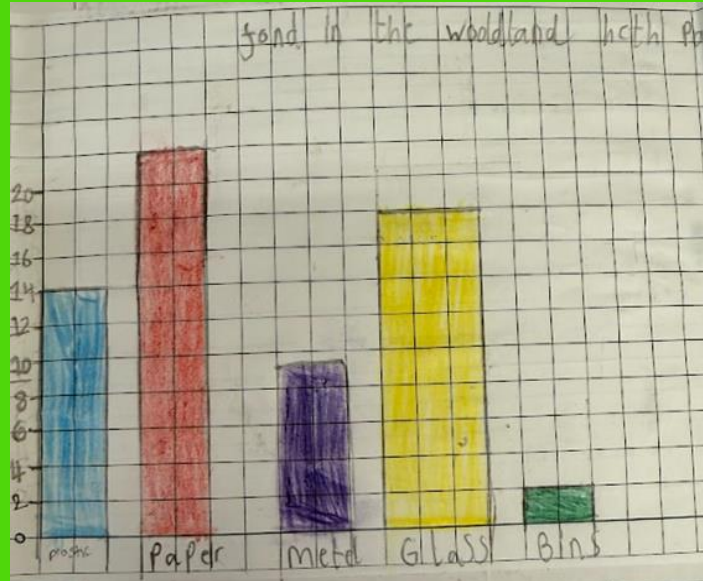

Litter pick in Heath Park - our data

Litter	Tally	Location found	Total
Paper/Card		Car park Path	17
Plastic	 	Woodland Path bushes	20
Metal/Foil		bushes Path	3
Glass		path	1
Fabric		feild	2
Other		soad on the floor	1

Today we did a litter pick in
heath park.

The most litter was found in
the woodland.

A marvelous mistake I made was
putting the numbers in the
rang place.

To correct my m m I
the teacher and ficks it. Lisend

Litter pick in our school

What we learnt

Heath Park

- Rubbish was dropped by people who did not care about the environment or think about the effect it will have on the animals.
- They did not care that leaving rubbish on the ground made the environment look unpleasant.
- There were not enough bins in Heath Park. More bins along paths would help stop littering.

Birchgrove Primary School

- Most of the rubbish was found in corners of the playground or next to the bin.
- Children need to make sure the rubbish goes into the bin. If it falls on the floor they need to pick it up.
- Belongings were left outside making the playground look untidy.

How you can help

- Put litter in the bins on the playground.
- Don't leave lunch bags on the playground or school uniform.
- Eco-council to organise regular litter picks around school
- Go on a litter pick with your family.
